CONSTRUYENDO CON DATOS

La plataforma está diseñada para profundizar, en muy poco tiempo, sobre lo escrito/dicho en algún momento. Obtener datos que únicamente se expresan de manera oral/escrita y poder tener una interpretación neutra que en tiempo hombre sería más costoso. De igual forma, hacer una verificación de los datos obtenidos en un menor tiempo es una ventaja competitiva desde el punto de vista editorial y empresarial. Lo anterior cubre desde discursos políticos hasta reportes trimestrales y llamadas con inversionistas de las empresas públicas. Y por supuesto, las minutas y comunicados de decisiones de política monetaria de los bancos centrales.

## Grupo Aeroportuario (OMAB) Q2 2018 Results - Earnings Call Transcript

Jul 19, 2018 5:45 PM ET | About: Grupo Aeroportuario del Centro Norte S.A.B. de C.V. (OMAB)

Q2: 07-15-18 Earnings Summary

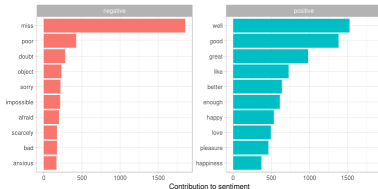

Press Release News

Turning to OMA's second quarter financial results. Aeronautical revenues increased 18% because of passenger volume growth and tariff increases in January 2018. Aeronautical revenue per passenger rose 7% in the quarter. Non-aeronautical revenues rose 11%, with commercial revenues making the largest contribution to growth. Commercial revenues increased 12%. The best performing categories were car rental, parking and restaurants. Car rental revenues rose almost 55% because of the opening and relocation of 25 new rental locations in the past nine months and improved contractual terms.

Parking revenue was up mostly because of additional capacity at the Monterrey Airport and the passenger traffic growth. Restaurant revenues rose 18%, mostly as a result of an improved offering at the Monterrey Airport. Advertising revenues were down because of the termination of the contract with a tenant for nonperformance, as informed in previous quarters. We expect to have a new concessioner in the third quarter.

Diversification activities grew 10%, mostly driven by the OMA Carga logistics business. Complementary services grew 12%, with the main factors being additional passenger traffic as well as inflation adjustment in rates.

Total aeronautical and non-aeronautical revenues reached Ps. 1.7 billion.
